length Recommendation:
V 20 Absorber R 40, V 16 R 55, V 16 R 55
+ 15 to + 20 cm

length Recommendation:
V 20 Absorber R 40, V 20 ATV R 30
+ 15 to + 20 cm

V 20 ABSORBER R 30

Designed for the expert skier who likes short radius turns, this quick-turning ski uses the Absorber-Floator technology to reduce vibrations for optimal edge hold and precise responses in all snow conditions.

Available lengths: 180, 185, 190, 195, 200, 203, 205, 207, 210 cm

V 20 ABSORBER R 40

A powerful high speed ski, the R 40 is designed for experts who prefer mid-radius turns and high speed runs. The Absorber-Floator technology keeps the ski quiet at speed without sacrificing any of the lively performance of the V 20s you know for.

Available lengths: 180, 185, 190, 195, 200, 203, 205, 207, 210 cm

V 20 ATV R 30

The newest V 20 model, this all-terrain vehicle is designed to take the adventurous skier where ever he chooses to go. Steeps, powder, bumps, chutes, high speed runs - this ski is designed to perform in any where on the mountain in any snow condition. V 20 Diagonal Glass for stability and a R 30 racing side-cut for quickness from edge to edge combine for precise, instant response.

Available lengths: 180, 185, 190, 195, 200, 203, 205 cm

CONCORDIA SKI TEAM

The Concordia University Ski Team is an independent organization run on campus. We are a self-governed, self-motivated team which competes against 10 other universities throughout Quebec and Canada.

Our season begins in the early weeks of the fall semester. At this time, we aim at conditioning our athletes through vigorous dryland training four days a week in preparation for the winter months.

During this period we maintain a very large squad of competitors, and it is not until after our snow training camp in the beginning of January that our racing squad is actually chosen. At this point 30 athletes are psyched and motivated for the 10 races that are to follow throughout the winter.

The circuit is a very demanding one with 160 racers competing on a regular basis. Many of these athletes have performed at all levels of ski racing in the past, thus promoting a very competitive atmosphere.

Ski racing is the main goal of our team, but while the team strives at promoting excellence in skiing we have also created a family. The people that we have become acquainted with during our time on the team may turn out to be life time friends. We are all on the team as racers but we are also there as students and this we hope will be a winning combination for the future.

Your A.C. Brace
Don't play
without it.

Julie Klotz, once again dominated the women by finishing 1st overall for the 2nd time in three years, (placing 2nd once). Her experience on the Canadian Alpine Ski Team has been a great asset to our skiers and our team. Julie, having been captain in 1991, has left a permanent mark on our organization

FEMALE M.V.P.

Mark Tilden, finishing 11th overall, showed incredible improvement and leadership. Mark led the men's squad by consistently placing in the top 10. His dedication and hard work has been a source of motivation for the rest of our team. He is looking forward to another successful season.

MALE M.V.P.

The Concordia Ski Team is now entering its 9th year as a democratic, student-run organization. It has done so with incredible success. We have seen some of the best skiers in the province and in

the country go through our program. From the likes of Laurent Beauchemin, Robert Seguin, Renata Scheib and her brother Marc, to people who raced on the Canadian Alpine National Ski Team; Liz Tommy and Julie Klotz, (Canadian Slalom Champion). These skiers along with countless other top racers have contributed to our program in many different ways. From being council members to being mentors for our less experienced skiers. But we must not forget

some of the real heroes of our program. The people who never really had an opportunity to ski race. These people, are the ones that showed true courage, by trying out and being determined to learn and by working hundreds of hours at our annual ski sale. The harmonious combination of these people has made our program one of the best that University life has to offer. The teamwork and their commitment to succeed is always present and is something that you can count on, year in and year out.

The 1993 Annual Ski Camp was once again a tremendous success, even though the weather did not always cooperate; (tropical downpour). Some of the new rookies (François Boulais, Sandy Clasa) showed incredible potential, while old veterans (Mark Tilden, Derek Burgen and Julie Klotz) demonstrated incredible skill and poise. The combination of all this cultivated talent and team spirit will make the 1993 campaign a success. *The tradition continues...*
